DETAILED ACTION

Allowable Subject Matter

1. Claims 3-28 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art fails to teach or suggest the combination of elements claimed by the applicant. In particular, the prior art fails to teach a blood reservoir with separate vented blood and suctioned blood inlets and filtering units wherein the vented blood does not contact the suctioned blood, along with the other steps and limitations of the claims. The best prior art of record, US 5,800,721 to McBride, discloses a blood reservoir with a venous blood and cardiectomy blood inlets, but does not teach keeping the flows separate through the filtering operation. Therefore, the instant invention is patentable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Leslie R. Deak whose telephone number is 571-272-4943. The examiner can normally be reached on M-F 7:30-5:00, every other Friday off.
